

Intentional Evangelism

Sunday, September 22

Introduction:

The New Testament describes the church using “body” terminology. Given that our earthly bodies need a good diet of food, water and exercise in order to stay healthy, how much more does Christ’s body (i.e. the people of God in the church) also need a “spiritual diet” in order to remain healthy and effective for God’s mission to the world.

Today we look at the third of “10 Missional Markers of a Healthy Church”: Intentional Evangelism.

Sermon Notes:

- *Christians are not just* _____ *; they are also* _____.
- Paul was *intentional* about _____ in others.
- Paul was *intentional* about seeking God’s direction for _____
_____.
- Paul was *intentional* about _____ the gospel.
- Paul was *intentional* about _____ of
the gospel.
- Paul was *intentional* about “ _____ ” _____
through joyful, sacrificial living.

What is the diet for intentional evangelism?

1. *Words about Jesus*
2. *Deeds done for Jesus*
3. *A Life lived in Jesus*

Questions for Reflection:

1. Why be intentional about evangelism?
2. "Christians are not just converted but also called." Agree or disagree?
3. Evangelism is words, deeds and example. What does this look like in your life?
